Master Agreements for Printing

Master agreements with multiple vendors have been established to facilitate the department's requirements for printing services without submitting requisitions to the Purchasing Agent. The master agreements include various printing categories, i.e., cut sheets, unit sets, continuous and specialty printing. *Note:* Printing vendors do not provide full printing services at each facility. Departments should contact the printing vendor or the Purchasing Agent for specific requirements.

How To Order

Instructions for ordering printed materials are contained in the brochure titled "Los Angeles County Departments How To Order Stock Forms, Non-Stock Forms, And Any Other Types Of Printed Materials." Copies are available by contacting the Purchasing Agent.
